

In-class Assignment 2: Variables and Measurement (13 points)

Pick two of the concepts below. Using available library resources and databases, find journal articles that report empirical studies using those concepts. Note that both concepts do not need to be in the same journal article.

- Media use
- Political engagement
- Support for a political party
- Opinions about climate change
- Sense of humor
- Opinions about energy
- Perceived credibility
- Trustworthiness

Respond to each question using complete sentences. Clearly label your responses with the corresponding question number and check spelling and grammar in your submission.

Submit your assignment as a PDF file via Canvas at the end of class.
