

# COMM 3710: Intro to Quantitative Research

Instructor: [Dr. Sara K. Yeo](#)

Email: [sara.yeo@utah.edu](mailto:sara.yeo@utah.edu)

## Course Outline

This course is a basic research methods course for those with little or no experience or course work in quantitative communication research. COMM 3710 is a quantitative intensive (QI) course. The goal of this course is to provide you with a critical framework for evaluating social science research and some hands-on experience in the process of conducting empirical investigations.

Key topics include:

- Developing a question into a research project
- Formalizing hypotheses and research questions grounded in theory
- Testing hypotheses and research questions
- Conceptual and operational definitions
- Measurement, sampling, and research design
- Data analysis in communication research
- Interpreting research results
- Communicating research

### Note

You are expected to log into the course Canvas website regularly (**at least 3-5 times per week**), complete and submit work on time, and ask questions if you need help. **It is your responsibility as a student to ask questions in a timely manner during scheduled labs and office hours, if you need help.**

## Teaching Assistant and Lab Sections

There is one graduate teaching assistant (TA) in this course. The graduate TA will lead the lab sections. For lab attendance policies, review the [course requirements](#).

There are two lab sections associated with this course:

- Section 002 (Wed 9:40 - 10:30 am, GC 1770)
- Section 003 (Wed 10:45 - 11:35 am, GC 1570)

Graduate TA: Jasim Uddin

Email: [u1468782@utah.edu](mailto:u1468782@utah.edu)

Office hours: Fri 1-3 pm, LNCO XXXX

---

## Required Text and Readings

The textbook for this course is listed below and available online. The course fee that you paid when you enrolled covers Inclusive Access to the Wrench textbook via Canvas. Additional readings will be provided as PDF documents on Canvas.

Wrench, J.S. (2019) *Quantitative Research Methods for Communication: A Hands-On Approach* (4th edition). New York, NY: Oxford University Press.

- To access this textbook, navigate to your **Bookshelf** on the Canvas site for this course.
  - This textbook is available through the [Inclusive Access program](#), which provides you with digital access to the textbook via Canvas at a reduced price.
  - You may opt out of the Inclusive Access program [here](#). However, the textbook is **required**, and you are expected to have it, even if you opt out of this program.
- 

## Technology Requirements

To ensure that you have full access to the course, you will need:

- Reliable access to a laptop or desktop computer. A mobile device (tablet, phone) is not sufficient to complete this course. Please bring a laptop to lab.
- An Internet browser compatible with [Canvas](#). For more information, see this [page](#). Announcements, assignments, readings, etc., will be posted

there. You should be familiar with Canvas. If you need help with Canvas, visit the [Canvas Getting Started Guide for Students](#).

- We will be using [R](#) in lab for data analysis. You do not need to have this set up before the semester begins. We will get set up in lab at the beginning of the semester.
- Additionally, access to a text-editor (e.g., Wordpad, TextEdit, Notepad++, Atom), Microsoft Office (Word, Excel, PowerPoint), and Adobe Acrobat (free for UofU students) are recommended.

#### Note

You are expected to know how to take a screenshot with your computer. A photo of your laptop or computer screen taken with your mobile device is *not* a screenshot.

---

## Course Requirements

Course grades will be based on the following:

- Quizzes (100 pts)
- In-class assignments (100 pts)
- Lab assignments (100 pts)
- Lab attendance (26 pts)

### Quizzes (100 pts)

Weekly quizzes will be administered online via Canvas. All quizzes will be based on assigned readings. **No make-up or late quizzes be administered.** You can take the quiz at any time during the week it is assigned. There are 12 quizzes, each worth 10 points.

You will have **15 minutes** to complete each quiz. Note that you will only have **one attempt** at each quiz—please do not start a quiz unless you are ready to complete it.

#### Important

Quizzes will open on Mondays at 12:00 am and are due on the Saturdays of that week at 11:59 pm.

## In-class Assignments (100 pts)

There are 11 in-class assignments. We will work on these during lecture sessions throughout the semester. Information on in-class assignments will be provided during lecture and on Canvas. Without exception, these assignments are due at the end of the lecture in which they are assigned.

**Late assignments will not be accepted.**

## Lab Assignments (100 pts)

There are 8 lab assignments. Information on individual assignments will be provided in lab and on Canvas. Assignment due dates will be listed on Canvas.

**Late assignments will not be accepted.** Please pay attention to any changes in the due dates on Canvas.

## Lab Attendance (26 pts)

This course has one [graduate TA](#) for two lab sections. When you enrolled in this course, you selected a lab section to attend. Please attend the section in which you are enrolled.

For each full lab you attend, you will earn two (2) points toward your attendance grade. If you are **5 to 15 min** late to lab, you will earn one (1) point toward your attendance grade. If you are more than **15 min** late to lab, you will earn no (0) points for attendance that day.

If you show up to a lab section in which you are not enrolled, your attendance will not count toward your grade and you will be asked to leave.

---

## Week 6 Participation Checkpoint

In addition to the [course requirements](#), there will be a participation checkpoint in Week 6.

### Note

At the end of Week 6, any students who have not demonstrated regular participation will receive an email advising them of their performance in this course up to this point.

- “Regular participation” as a student is defined as earning at least 50% of the possible points on required graded content up to this point.
- The checkpoint threshold is generous—well below a failing score for this course. Regular participation is required because each week’s material

builds on content and work from the prior week. If you are not meeting this standard by this point in the course, it is often too late to “catch up.”

- Non-participants will be urged to withdraw from the course to avoid receiving a failing grade (see the University’s [Academic Calendar](#) for withdrawal deadlines).

---

## Course Grading

### ! Important

If you wish to dispute your grade on any assignment or quiz, you must put your concerns in writing (please adhere to the [course email policy](#)) to your [graduate teaching assistant](#), clearly outlining your rationale. These concerns must be presented to your TA within one week of receiving your grade.

Grades in this course will be based on the following scale.

Grade	Score (%)
A	93 to 100
A-	90 to < 93
B+	87 to < 90
B	83 to < 87
B-	80 to < 83
C+	77 to < 80
C	73 to < 77
C-	70 to < 73
D+	67 to < 70
D	63 to < 67
D-	60 to < 63
E	< 60

You can and should check your grade regularly on Canvas. You can also use the spreadsheet provided on Canvas to calculate “what-if” scores and determine the score you need to get to do well in this class.

Information on the grade points assigned to letter grades and how to calculate your GPA can be found [here](#).

## Course Policies

By enrolling in this course, you agree to:

1. respect the instructors and all members of the course;
2. engage with the online content meaningfully;
3. meet the requirements of this course; and
4. abide by the course policies outlined in the syllabus.

This list represents the **minimal standards** to make the course a productive learning space. **Your final grade may be reduced by 1% each time you engage in disruptive and/or disrespectful behaviors.**

## Email Policy

### Note

It is critical that you check your University email account frequently and that you use your University email account to contact your instructors.

**Course instructors will not respond to emails originating from a non-University account (e.g., Google, Yahoo, etc.).** Using a non-University account runs the risk of your message being diverted to Spam and your message may not reach me in a timely fashion, if at all. Emails should be written clearly and professionally with correct spelling and grammar. **Emails that do not conform to these rules will not receive a response.**

When you contact your instructors, you are expected to be professional in your communication. This includes:

- Providing a relevant description or statement in the email subject line. Do not leave the subject line blank or simply write, “Hi.”
- Providing your full name, uNID, and class section in the message.
- Using appropriate salutations (e.g., Dr. or Prof. Yeo).
- Using paragraphs, not just long blocks of text.
- Proofreading your writing.
- Providing a clear description of your problem and all relevant information.
- Being polite in your emails. For example, you should end your messages with a signature, such as “sincerely,” “regards,” or “thank you.”

## Course Civility

Communication allows us to engage with others and broaden our perspectives. How concepts are discussed, in the physical or virtual classroom, is part of that process. Diverse perspectives and experiences will inform and enhance our discussions. Each member of the class is expected to foster a respectful, generous, and supportive environment that makes room for productive difference

and reasoned debate. Spirited discussion is encouraged. However, incivility is a different story entirely.

Here is the basic etiquette that will be expected in the course:

- Please address your classmates by name. There is a human being on the other side of the screen/room who also has struggles, doubts, and bad days.
- Civil disagreement is encouraged! Approach differences in a manner that seeks clarity and better understanding by asking productive questions and by providing counterarguments that are supported with evidence.
- Anytime you have a strong emotional reaction to something, pause before responding. Always seek to provide an argument that is supported by credible evidence based on the concepts discussed in this course.

## Academic Misconduct

### Warning

Academic misconduct will be punished to the fullest extent possible.

You are responsible for understanding what constitutes academic misconduct (see [Policy 6-400](#)). Anyone found guilty of academic misconduct should expect to fail this course.

In addition, academic misconduct may result in other penalties deemed appropriate by the university. Your rights and responsibilities are outlined in Policy 6-400, the Code of Student Rights and Responsibilities. You are responsible for obeying [Policy 6-400](#). Ignorance of the policy is not an excuse.

## Curriculum Accommodations

Curriculum accommodations take two forms—scheduling and content accommodations. On a case-by-case basis, if you submit the appropriate documentation in advance of the conflict (when possible), scheduling accommodations for assignments may be considered.

If you anticipate a scheduling conflict, please speak with your [TA](#) as soon as possible. Without exception, it is your responsibility to plan for any scheduling conflict. **There will be no scheduling accommodations for quizzes.**

**There will be no content accommodations in this course.** The material has been selected for its pedagogical value in relation to the concepts we are engaging. It is your responsibility to review the course materials to be sure that this is a course you wish to take. More information on the University's accommodation policy can be found in [Policy 6-100](#).

## Emergency Plan

In the event of a University-wide emergency which prevents face-to-face meetings, students should continue to stay current with our schedule as posted in this syllabus and to attend to the course website on Canvas. Information about the status of assignments and other course work due during this period will be addressed on Canvas and, if necessary, by way of email.

---

## University Policies

### COVID-19 [CHECK]

This is an in-person course; you will be expected to attend classes in person. To protect yourself and those you care about, the University recommends that you:

- Get a COVID-19 vaccination if you have not already done so.
- **Get weekly asymptomatic coronavirus tests** if you are not vaccinated. For more information or to schedule an asymptomatic coronavirus test, visit [alert.utah.edu/covid/testing](https://alert.utah.edu/covid/testing).
- **Wear a face mask properly while indoors.**

If you test positive for COVID-19, submit a self-report at [coronavirus.utah.edu](https://coronavirus.utah.edu). For more information about how the University is handling the coronavirus pandemic, visit [coronavirus.utah.edu](https://coronavirus.utah.edu).

### ADA

The University of Utah seeks to provide equal access to its programs, services, and activities for people with disabilities. If you will need accommodations in this class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olpin Union Building, (801) 581-5020.

CDA will work with you and the instructor to arrange accommodations. All written information in this course can be made available in an alternative format with prior notification to the [Center for Disability & Access](#).

### Safety

**University Safety Statement.** The University of Utah values the safety of all campus community members. To report suspicious activity or to request a courtesy escort, call campus police at 801-585-COPS (801-585-2677).

For more information regarding safety and to view available training resources, including helpful videos, visit [safeu.utah.edu](https://safeu.utah.edu).

**Addressing Sexual Misconduct.** Title IX makes it clear that violence and harassment based on sex and gender (includes sexual orientation and gender identity/expression) is a civil rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran's status or genetic information.

If you or someone you know has been harassed or assaulted, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or the Office of the Dean of Students, 270 Union Building, 801-581-7066. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776. To report to the police, contact the Department of Public Safety, 801-585-2677 (COPS).

### **Undocumented Student Support [CHECK]**

Immigration is a complex phenomenon with broad impact—those who are directly affected by it, as well as those who are indirectly affected by their relationships with family members, friends, and loved ones. If your immigration status presents obstacles to engaging in specific activities or fulfilling specific course criteria, confidential arrangements may be requested from the Dream Center.

Arrangements with the Dream Center will not jeopardize your student status, your financial aid, or any other part of your residence. The Dream Center offers a wide range of resources to support undocumented students (with and without DACA) as well as students from mixed-status families. To learn more, please contact the Dream Center at 801-213-3697 or visit [dream.utah.edu](http://dream.utah.edu).

---

## **Course Schedule**

The schedule is tentative. Any changes will be announced on Canvas. Your continued enrollment in this course constitutes an agreement to abide by the policies and procedures in this syllabus.

The schedule below lists the dates on which assignments will be assigned. Due dates for these can be found on Canvas.

WK	DATES	LECTURE	READINGS	IN-CLASS AS-SIGN- MENT	QUIZ	LAB ASSIGNMENT
1	19-Aug, 21-Aug	Introduction Ways of Knowing	Syllabus Wrench Ch. 1, 2	1		
2	26-Aug, 28-Aug	The Process of Research	Wrench Ch. 3 BBC	2	1	LA-1: Ethics in human subjects research
3	2-Sep, 4-Sep	LABOR DAY (no lecture)	—	—	—	LA-2: Setting up R (10 pts)
4	9-Sep, 11-Sep	Concept Explication	McLeod et al.	3	2	LA-3: Working with data
